

## Immersive Reader in Assignments on Teams

Once the button is clicked the learners can play the audio of the task required.

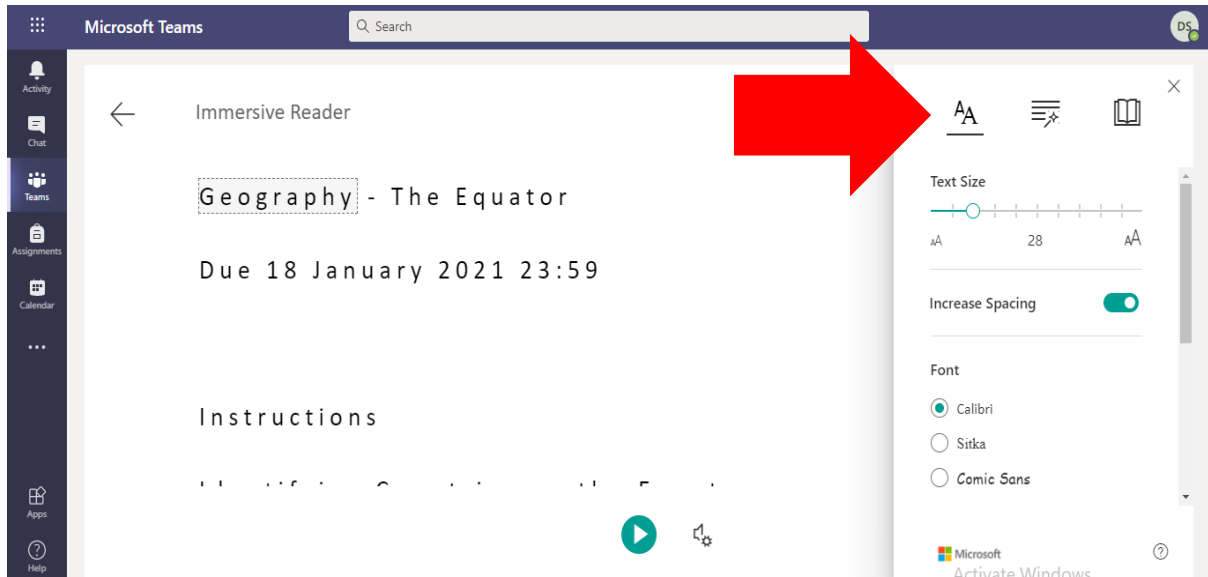

Or learners can play each word by clicking on the word to reveal a symbol. An audio option is also available.

At the right-hand side of the Immersive Reader, it gives three options:

### **Text Preference**

You can change the text size/font and spacing.

### **Grammar options**

You can highlight parts of the sentence into nouns, verbs, adjectives and adverbs. You can split the words up into syllables.

## Reading Preferences

You can focus on each line by clicking line focus. You can translate singular words and the whole document.
