

Teaching Assistant Framework

Learning Today for Our Tomorrow

Effective Collaboration with teachers

When teachers assistants use their extensive knowledge of learners academic targets and support needs, and work collaboratively with the teacher.

Learners will feel more confident and well supported in lesson, leading to greater independence and resilience.

Useful Feedback

When teachers assistants provide individual feedback to learners, acknowledging their achievements, progress and correct misconceptions.

Learners will be clear about their individual progress, feel motivated and be more aware of their next steps.

Knowledge of Learning

When teachers assistants have an understanding of the curriculum journey, learning objectives and adapted teaching strategies.

Learners will make more progress, grow in confidence and fully engage in their education.

Flexibility

When teaching assistants are flexible and adapt to learners needs, utilising a variety of teaching methods, technologies are responsive to the needs of learners

Learners will feel well support, both academically and emotionally, enabling them to make progress in the lessons.

Empathy and Resilience

Display a consistently positive and friendly attitude, promoting a safe and welcoming atmosphere within school.

Learners will feel safe, secure and able to reach their full potential

Clear Communication

Are clear and concise with instructions and explanations. Show active listening and read verbal and non verbal cues.

Learners will be clear in the learning and will learn in a positive and engaging environment
